

March 8, 1974

Called meeting for 8:00p. m., waited until 8:30 p. m.

Present: Aldon Anderson
George Schade
Elmer Ebaugh
Nora Ebaugh

Absent : Berry Belcher, second time in a row.

Minutes of last meeting were read and approved as read.

A motion was made by George Schade and second by Aldon Anderson that the trustees that hold an office should receive \$25.00 a month. The ones not holding any office should receive \$5.00 a month.

Was brought up that the Town President and Water master should attend meetings that are of interest to the town. Also that any person who is working for the city should receive \$3.00 an hour so that we can repair our water lines and other things that have to be done for our benefit now that the town has promises of growing. We have also been told that we have to remove all the old cars that are in town.

George Schade made a motion that we get a set of new books and also some stationary , second by Aldon Anderson.

Outstanding bills are.....Lease No. 14804 from the D&RGW Railroad for water right, \$25.00 for ~~any year~~.

George Schade Treasurer \$25.00 for month of January, \$25.00 for month of February, \$50.00 all total.

Nora Ebaugh City Clerk \$25.00 for month of January, \$25.00 for month of February. \$50.00 total

Aldon Anderson \$5.00 for month of January, \$5.00 for month of February. \$10.00 in total.

Berry Belcher \$25.00 for water master for month of February and \$5.00 for housing fire truck., \$30.00 total/
Town President

Attention: Mr. Elmer Ebaugh, Mayor

Re: Report & Recommendation for Water System

Gentlemen:

We appreciated the opportunity to meet with you and discuss your water system, and the plans you have with regard to future growth and expansion of your system. There are several areas which need to be investigated in order to determine what should be done in the way of upgrading and expanding the system.

In the way of a preliminary report on your system, we proposed the following:

1. Investigate your present source of water and determination as closely as possible the flow that can be expected throughout the year.
2. Investigate the possibilities of the Town of Soldier Summit acquiring this source of water.
3. Locate and map all present water lines in the system insofar as possible.
4. Determine the condition of these lines and the flows that could be expected in various parts of the system.
5. Make recommendations as to storage, pipe sizes, and locations to serve your immediate needs and future anticipated needs.
6. Make recommendations as to connection fees and water rates.
7. Prepare budget estimates for the recommended project.
8. Investigate financial sources and make recommendations for financing your water system improvements and expansion.
9. Be available to meet with you to discuss any aspects of the project and answer any questions you may have.

May 23, 1974

Dear Mayor/Town President:

Your League's offices received the attached, ADVISORY ON FAIR LABOR STANDARDS ACT Amendments specifically as they relate to POSSIBLE FIREFIGHTER SCHEDULES from the Offices of the National League of Cities in Washington, D. C.

The schedules which are being sent for your consideration for the purpose of planning firefighter schedules over the next several years have been prepared by William Danielson, Personnel Director, City of Sacramento, California.

The proposed schedules are developed specifically with the purpose of avoiding the payment of overtime, yet providing work schedules which are permissible under the Fair Labor Standards Act Amendments for the next four years. The schedule assumes (and as noted in the information we received from the National League the issue is far from being settled) that the current definition disallowing exclusion of sleep and meal time will prevail.

We hope that this information will be of assistance to you in your efforts to continually up-grade the management of your city's/town's municipal services. As further information is received by your League's office regarding the necessity of municipal governments to comply with the amendments to the Fair Labor Standards Act as well as other areas of municipal concern, we will continue to keep you posted.

The material being sent to you at this time should be placed in your Ready Reference For Cities and Towns In Utah in the personnel section along with the Information Bulletin sent to you last week.

Mayors/Town Presidents

Page 2

May 23, 1974

Due to the cost of printing as well as mailing, it is necessary that we request you to make additional copies of the information that is needed by your city/town.

If you have questions or comments regarding the material being sent to you, or any other areas of concern, please do not hesitate to call or write us so that we may improve our services to your community.

Sincerely yours,

UTAH LEAGUE OF CITIES & TOWNS

Herschel G. Hester III,
Director of Research & Community Relations

SALT LAKE CITY, UTAH 84101

Proposed Definitions

Employee in Law Enforcement Activities (Including Security Personnel in Correctional Institutions)

For purposes of the Fair Labor Standards Act, employees that fall within the category of "any employee in law enforcement activities" (including security personnel in correctional institutions) includes uniformed members of any police department, sheriff's department, highway patrol and agents of the Federal Bureau of Investigation, whose duties may require them to enforce provisions of a State or Federal penal or criminal code. Persons not included within this definition include building inspectors, health inspectors, parking enforcement officers and traffic officers (other than uniformed police or sheriff's officers as previously described) and other security personnel other than security personnel in correctional institutions.

Employee in Fire Protection Activities

Employees included in the definition of "employee in fire protection activities" include uniformed, fully-paid or part-paid firemen who are members of an organized fire department or fire protection district, and who have the authority and responsibility to engage in the extinguishment of dangerous or injurious fires within their jurisdiction.

Employees Engaged in Rescue-Ambulance Services

Employees engaged in the rescue-ambulance service activities of a public agency shall be covered by the same overtime provisions governing employees engaged in fire protection activities. These employees must be directly employed by a public agency and engaged in rescue or ambulance activities which are substantially related to fire protection or law enforcement activities. In some instances these rescue or ambulance employees will be part of the fire or police department of their respective jurisdiction. In other cases, they will be under a separate department of a public agency, but their activities should substantially include rescue and ambulance work associated with fire protection and law enforcement. Employees engaged in rescue-ambulance activities previously covered by the overtime provisions of Section 7 of the Act, prior to the 1974 Amendments, shall not be included within this definition.

Public Safety Officers

The Secretary recognizes that some jurisdictions employ persons classified as Public Safety Officers. These employees are engaged in both law enforcement and fire protection activities, depending upon their assignment, and the need of the jurisdiction at a given time. For purposes of the FLSA, each employee or position will be looked at by itself. Those employees that spend more than fifty percent (50%) of their time in fire protection or standby time related to fire protection activities will be considered employees engaged in fire protection activities. Those employees who spend more than fifty (50%) percent of their time in law enforcement related activities such as patrol work, investigation of criminal activities, etc. will be considered employees engaged in law enforcement activities.

Support Personnel

Employees who are employed by an employer who engages in law enforcement or fire protection activities, but who do not engage directly in such activities, and perform such functions that are necessary to support those activities but cannot be expected to be required to engage in those activities, will be considered support personnel and not subject to the provisions dealing with law enforcement employees or fire protection employees. Examples of such support activities include clerical and secretarial employees, mechanics, administrative assistants, etc.

May 15, 1974

POTENTIAL FIREFIGHTER SCHEDULES BEGINNING JANUARY 1, 1975

The 1974 Amendments to the Fair Labor Standards Act provide that beginning January 1, 1975, overtime is mandated for "tours of duty" in excess of 240 hours in 28 days or, if more than 7 or less than 28 days, the same ratio as 240 bears to 28 days. This means that in 1975, a 60 hour average fire duty week is a maximum duty schedule permissible in the federal law. Overtime is mandated for duty hours over an average of 60 hours per week. There are only two schedules which are possible between 7 and 28 days which are equivalent to an average of a 60 hour duty week. ("X" represents a 24 hour period on duty; "O" represents a 24 hour period off duty.)

Five 24-hour periods in 14	XOXOXOXOXOXXXX
Ten 14-hour periods in 28	XOXOXOXOXOXOXOXOXOXOXOXXXXXXX

Effective January 1, 1976, paid overtime is required for "tours of duty" in excess of 232 hours or, if more than 7 or less than 28 days, the same ratio as 232 bears to 28. This schedule would require overtime in excess of 58 hours average per week. However, no fire duty schedule will fit within the 28 day cycle except 56 hours or less. Therefore, effectively, the fire duty cycle mandated as of January 1, 1976 is 56 hours rather than 58. The ratio of fire duty schedules equivalent to a 56 hour average duty period between 7 and 28 days is as follows:

Three 24-hour periods in 9	XOXOXOXXXX
Four 24-hour periods in 12	XOXOXOXOXXXX
Five 24-hour periods in 15	XOXOXOXOXOXXXX
Six 24-hour periods in 18	XOXOXOXOXOXOXXXX
Seven 24-hour periods in 21	XOXOXOXOXOXOXOXXXX
Eight 24-hour periods in 24	XOXOXOXOXOXOXOXOXXXX
Nine 24-hour periods in 27	XOXOXOXOXOXOXOXOXOXXXX

The above schedules are each divisible by three. It is not possible to have a 7 day schedule or a 28 day schedule which is divisible by three. Therefore, the "ratio" permitted by the law is important. Cities which presently use a duty cycle of one-in-three or two-in-six should be warned to re-schedule the fire duty cycle so as to avoid payment of unnecessary overtime.

Effective January 1, 1977, 216 hours are mandated, equivalent to 54 hours per week. Only one fire duty schedule will fit exactly the average of 54 hours per week. This schedule is nine 24-hour periods in 28 days (or nine 10-hour periods and nine 14-hour periods if using the 10/14 schedule).

Nine 24-hour periods in 28	XOXOXOXOXOXOXOXOXOXXXXXXX
----------------------------	---------------------------

Effective January 1, 1978, overtime for hours in excess of whichever is less, 216 hours in 28 days (average 54 hours per week) or the average number of hours in a "tour of duty" for employees engaged in such activities in duty periods of 28 days in the calendar year 1975 or the ratio of 216 hours in 28 days or a lesser number of hours if that is the case.

The attached table lists the permissible fire duty cycles in 1975 from seven days in length up to 28 days. The calculations assume that DoL will continue the ruling disallowing exemptions of sleep and meal time.

AN ORDINANCE ADOPTING THE UTAH TRAFFIC CODE - RULES OF THE
ROAD 1974 - AS PREPARED, COMPILED AND PUBLISHED BY THE DEPART-
MENT OF PUBLIC SAFETY OF THE STATE OF UTAH AS THE TRAFFIC CODE

FOR THE _____ OF _____
BE IT ORDAINED BY THE _____ OF THE _____
OF _____, UTAH, A _____

Section 1. Adoption of Utah Traffic Code. The Utah Traffic Code
Rules of the Road 1974 - as compiled, prepared and published in code book form
by the Department of Public Safety of the State of Utah (hereinafter "code") is
hereby approved and adopted as the Traffic Code of this municipality, except as
hereinafter specified, and is made a part of this Ordinance as though herein
fully printed.

- (a) All references in the code to the State Road Commission shall be
deemed to mean this municipality and its department, agency, or agency,
unless the context otherwise requires.
- (b) All references to "local authority" shall be deemed to mean the
governing body of this municipality.
- (c) All references in the code to the Department of Public Safety of the
State of Utah shall be deemed to mean the chief law enforcement officer of
this municipality or its agent, unless the context otherwise requires.
- (d) All references in the code to "law enforcement" shall mean the justice of
the peace or judge of this municipality, unless the context otherwise requires.
- (e) "Resident" as used in this Ordinance shall mean the person who owns or
town clerk as the case may be.

Section 2. Prima Facie Speed - Designated Streets. When appropriate street signs giving notice of speeds thereon are erected, the prima facie speed limits designated in Schedule 1 of this Ordinance shall apply to the appropriate streets listed therein.

Section 3. Angle Parking. Angle parking shall be permitted upon the streets or parts of streets described in Schedule 2 of this Ordinance. The chief law enforcement officer shall mark or sign such streets or parts of streets and also indicate the angle of such parking.

Section 4. Through Streets Designated. Those streets and parts of streets described in Schedule 3 of this Ordinance are hereby declared to be through streets.

Section 5. Authority to Erect Stop or Yield Signs at Through Streets. Whenever any Ordinance of this municipality designates and describes a through street it shall be the duty of the chief law enforcement officer to place and maintain a stop sign, or where safety and efficiency require, at any intersection a yield sign, on each and every street intersecting such through street unless traffic at any such intersection is controlled at all times by traffic-control signals; provided; however, that at the intersection of two such through streets or at the intersection of a through street and a heavy traffic street not so designated stop signs shall be erected at the approaches of either of said streets as may be determined by the chief law enforcement officer on the basis of an engineering and traffic study.

Section 6. Stop Intersections. The entrances to intersections described in Schedule 4 of this Ordinance are hereby declared to be stop entrances.

Section 2. Prime Time - Designated Streets. When appropriate

street signs giving notice of speeds thereon are erected, the prime time speed limits designated in Schedule 1 of this Ordinance shall apply to the appropriate streets listed therein.

Section 3. Angle Parking. Angle parking shall be permitted upon the streets or parts of streets described in Schedule 2 of this Ordinance. The

chief law enforcement officer shall mark or sign each street or parts of streets and also indicate the angle of such parking.

Section 4. Through Streets Designated. Those streets and

streets described in Schedule 3 of this Ordinance are hereby declared to be through streets.

Section 5. Authority to Erect Stop or Yield Signs at Through Streets.

Whenever any Ordinance of this municipality designates and describes a through street it shall be the duty of the chief law enforcement officer to place and maintain a stop sign, or where safety and efficiency require, at any intersection a yield sign, on each and every street intersection and through street unless traffic at any such intersection is controlled at all times by traffic-control signals; provided, however, that at the intersection of two such through streets or at the intersection of a through street and a busy traffic street not so designated stop signs shall be erected at the approaches of either of said streets as may be determined by the chief law enforcement officer on the basis of an engineering and traffic study.

Section 6. Stop Intersections. The entrances to intersections described

in Schedule 4 of this Ordinance are hereby declared to be stop intersections.

Section 7. Location of Stop Signs. The chief law enforcement officer shall erect and maintain a stop sign at all stop entrances to intersections.

Section 8. Yield Intersections. The entrances to intersections described in Schedule 5 of this Ordinance are hereby declared to be yield entrances.

Section 9. Location of Yield Signs. The chief law enforcement officer shall erect and maintain a yield sign at all yield entrances to intersections.

Section 10. Schedules. Schedule 1. Prima Facie Speed Limits on Designated Streets.

Schedule 1-a. Thirty miles per hour when signs are erected giving notice thereof on the following streets or parts of streets:

Schedule 1-b. Forty miles per hour when signs are erected giving notice thereof on the following streets or parts of streets:

Schedule 2. Angle Parking. Schedule 2-a. Forty five degree angle parking shall be permitted on the following streets or parts of streets:

Section 7. Location of Stop Signs. The chief law enforcement officer shall erect and maintain a stop sign at all stop entrances to intersections.

Section 8. Yield Signs. The entrances to intersections described in Schedule 5 of this Ordinance are hereby declared to be yield entrances.

Section 9. Location of Yield Signs. The chief law enforcement officer shall erect and maintain a yield sign at all yield entrances to intersections.

Section 10. Schedules. Schedule 1. Primary Road Speed Limits on Designated Streets.

Schedule 1-a. Thirty miles per hour when signs are erected giving notice thereof on the following streets or parts of streets:

Schedule 1-b. Forty miles per hour when signs are erected giving notice thereof on the following streets or parts of streets:

Schedule 2. Areas of No Parking. Schedule 3-a. Forty-five degree angle parking shall be permitted on the following streets or parts of streets:

Schedule 2-b. Thirty degree angle parking shall be permitted on the following streets:

Schedule 3. Through Streets Designated. The following streets are designated through streets:

Schedule 4. Stop Intersections. When signs are erected giving notice thereof, the following intersections shall constitute stop intersections:

Schedule 5. Yield Intersections. When signs are erected giving notice thereof, the following intersections shall be yield intersections:

Section 11. Penalties. Any person violating, causing or permitting violation of any provision of this Ordinance shall be guilty of a misdemeanor. Notwithstanding other language or provisions in the Utah Traffic Code - Rules of the Road 1974 - hereby adopted, any violator of this Ordinance, upon con-

Schedule 2. - Thirty degree angle shall be permitted on the

following streets:
